WASHINGTON SENTINEL.

VOL. 2. .

TRI-WEEKLY.

NO. 106.

T. H. PARSONS, Agent.

CITY OF WASHINGTON, THURSDAY MORNING JUNE 7, 1855.

WOOD GAS.—CAUTION
Be it known that I, the subscriber obtained letters patent in December, 1851, for an apparatus for the destructive distillation of wood, and the making therefrom of tar or pitch at pleasure, and gas; and that in the judgment of competent persons the invention of an appartus recently patented by W. D. Porter cannot be used by him or any other person without infringing my said patent. And, further, that what is patented by a said Porter rightfully belongs to me, as I expect to prove ere long before the United States Patent Office; and, further, that the use of said Porter's invention involves also a process which I am now claiming before the United States Patent Office, and which has been adjudged to be patentable to the first inventor thereof, and which said W. D. Porter has formally disclaimed, as appears upon the public records of said office, of which an official copy is hereto annexed, and also a copy of his claims.

In the National Intelligencer of the 25th instant Mr. Porter announces that he has secured by patent the "exclusive right to making gas from wood," and threatens presecution to all parties infringing his patent. I ask how this statement comports with the fact of my patent of December, 1851, and how far the threat can intimidate under such circumstances? Mr. Porter's claim is based upon a movable perforated diaphragm, and was so understood by the Patent Office, as it appears from the records of the Patent Office that his claim was at first refused as interfering with a prior patent to Robert Foulis, of Canada, for an equivalent contrivance. This claim, as given below, and in which the perferated diaphragm is the saving clause, is what Mr. Porter calls securing the "exclusive right to making gas from wood." The statement carries absurdity on its front, and is a libel on the good sense of the Patent Office If such a claim or right had been granted, it would forbid every coal-kiln and charcoal manufactory in the country.

The following copies of correspondence and

The following copies of correspondence and extracts from the records of the Patent Office will show the true state of the case:

UNITED STATES PATENT OFFICE Six. In reply to your letter of this date, asking "if any patent has been granted to W. D. Porter, dated 22d August, 1854, or at any other time, or to any other parson or passes." dated 22d August, 1854, or at any other time, or to any other person or persons, securing to him or them "the exclusive right of making gaz from wood," and whether any such claim was made by W. D. Porter, under his application for a patent, which letters patent were issued bearing the above date, you are informed that W. D. Porter's claims are believed to be c nfined to his apparatus; and, further, this office is not aware that a patent has been granted heretofore for the exclusive right of making gas from wood. It would, however, be unjustifiable to expect me to make an extended investigation to answer your request.

"WASHINGTON SENTINEL." PROPOSE to publish in the city of Washington, in September, a political newspaper, under the name of the WASHINGTON SENTINEL.

NEL.

In doing so, it is proper I should make known the principles it will maintain, and the policy it will advocate.

It will support cordially and earnestly the principles of the Democratic party of the United States it does not propose to be the organ of any Depart ment of the Government, except in so far as an in dependent maintenance of the doctrines of that party may represent its opinions and express its views.

It will not be ambitious to commend itself to the people by a blind flattery of their rulers. It will seek public support by the bold avowal of the sentiments which are common to the genuine Democracy of the Union, and by the condemnation of all such as may conflict with them, from whatever quarter they may come. It will seek to be (and it will endeavor to deserve the title) the organ of the Democratic party of the United States.

truth of that great party, that the States formed the Union between them by the ratification of the Con the Federal Government, and delegated to it, as their common agent, the powers expressly specified in it, with an explicit reservation of all others to the States, or to their separate governments. The exercise of any powers beyond these thus delegated, is, therefore, an usurpation of the reserved authority of the States by the agent of their own creation.

The SENTINEL will uphold and defend the Union upon the basis of the rights of the States—under

ipon the basis of the rights of the States-unde the Constitution—and thus by sedulously guarding the latter, it will the more effectually strengthen

and perpetuate the former.

With regard to the exercise of the powers of the Feceral Government, the Sentinel will take as the principles of its action, that Congress shall exercise no power which has not been delegated by the C. ustitution, according to a strict and fair interpretation of its language and spirit; and that it shall ne seek to attain indirectly an object through the exercise of constitutional power, for the direct attainment of which it has no delegation of power. In other words, all powers exercised must be clearly grated, and all granted powers must be used for no surpose, except such as is clearly intended by the Constitution.

In respect to the internal administration of the

In respect to the internal administration of the In respect to the internal administration of the Government, the Sentingle will sustain the settled policy of the Democratic party. It will labor to inculeate this cardinal doctrine of Democratic in ternal policy:—that this Government will best promote the freedom and presperity of the people of the States, by being less ambitious to exercise power, and more auxious to preserve liberty; and by leaving to the individual States the management of all their domestic concerns—while it contents itself with guarding the confederacy from external violence, and directing the foreign policy external violence, and directing the foreign policy of the country to the promotion of the common interests, and defence of the common rights, and onor of the States composing it.

The SENTINEL will advocate such a progressive foreign policy as will suit itself to the exigencies, and correspond with the expanding interests of the country. That policy should be energetic and decided; but should temper firmness with liberality, and make its highest ends consist with the strictest principles of justice. The real interests of the country, upon each occasion demanding attention country, upon each occasion demanding attention will be its guide in the course the SENTINEL wil

Our foreign policy should, indeed, be defensive but to be properly defensive, it must sometimes be apparently aggressive. Our administration should be vigilant, watchful, and energetic. The world be vigilant, watchful, and energetic. The world is full of important movements, commercial and political, deeply concerning American trade and American power. It is time we had an American foreign policy. We must have it. We cannot avoid it if we would. We have larger interests, and a greater stake in the world and its destiny, than every other people. We occupy the best portion of a continent, with no neighbors but a colony, and a worn-out, anarchical despotism. We are the olny people whose own land, without colonial defendencies, is washed by the two great oceans of the world. Our agricultural productions are more varied and more essential to civilized life, and to human progress—our mineral and manufacturing resourcea more vast—our facilities and capacity for internal and foreign commerce more extended than those of any other people living under one government. A continent, to a great extent, unexplored and exhaustless in its yet hidden wealth is at our feet. European trade seeks the great East explored and exhaustless in its yet hidden wealth is at our feet. European trade seeks the great East through avenues which are at our doors, or must be made through our own limits. Europe, Asia, Africa, and the isles of the sea, lying all around us, look to us as the rising power, through the agency of whose example, and ever widening and extending, though peaceful influences, the bless ings of liberty, civilization, and religion, are destined to triumph over the barbarism and superstition of the millions of the world. And shall such a people refuse to lay hold upon their destiny, and act upon the high mission to which it is called? A mission so full of hope, though so laden with responsibility, which, if properly directed, must make our confederacy the harbinger of peace to the world, as well as the peaceful arbiter of its

The SENTINEL will, therefore, advocate a bo The SENTINEL will, therefore, advocate a bold and earnest foreign policy, such as the condition of the country demands; but it will advocate it under the flag of the country—nowhere else. Its foreign policy must be consistent with the spotless honor and unimpeachable good faith of the country. To be respectable at home and abroad, and to be great in the eyes of the world, it must ask for nothing but what is right, and submit to nothing that is wrong. BALTIMORE AND OHIO RAILROAD HAVING greatly improved its Western connections now offers the fulle-t inducements to travellers between Washington, Bultimore, and all portions of the West, the Northwest and the Southwest.

The connection between the trains from Washington, Bultimore, and all portions of the West, the Northwest and the Southwest.

The connection between the trains from Washington and the trains bound west from Baltimore is always promptly made at the Washington Junction (lately called the Relay House) 9 miles from Baltimore. This is the only change of cars required between Washington and the Ohio river. Baggage is checked through to Wheeling at the Washington station, and rechecked and transferred there, (with the passengers) without charge, for those holding through tickets for points beyond. The connecting trains leave Washington daily at 6 a. m. and 4½ p. m. On Sundays at the latter hour only.

rains of the CENTRAL OHIO RAILROAD, run ning from Bellarre on the Ohto, near Wheeling, through Cambridge, Zanesville and Newark, to COLUMBUS. These trains connect at Newark with the cars of the Newark. Mansfield and Sandusky Railroad for Sandusky, Toledo, Detroit,

Chicago, St. Louis, etc.
At Columbus the C. O. Railroad trains connec with the fast trains of the Little Miami Railroad to Xenia, CINCINNATI, LOUISVILLE, etc. At to Xenia, CINCINNATI, LOUISVILLE, etc. At Xenia (on Little Miami Railroad) connection is formed with the trains through Dayton, to INDI-ANAPOLIS, Terre Haute, Lafayette, Chicago, Rock Island, St. Louis, etc.

Passengers holding through tickets for Memphis, Vicksburg, Natchez, New Orleans etc., which are also sold at Washington, are transferred at Cincinnati to the Mail Steamers on the Ohio. Tickets for Evansville, Cairo, and St. Louis are sold by this route.

Toledo, Detroit, Chicago, etc., tickets are sold, when the Ohio is navigable between Wheeling and Wellaville (forty miles) where a connection with the Cleveland and Pittsburg Railroad is made. Travellers are requested to notice that while this is the only route affording through tickets and checks in Washington, it is also the shortest, most speedy, and direct to nearly all the leading points in the great West. The distance from Washing-ton to Cincinnati is but 653 miles, being about 100
